PROFILE SUMMARY

I am a final year Computer Science student with experience in data quality, AI model training, and database management. I have worked on real-world projects involving data validation, monitoring and evaluation, and team coordination. I am skilled in analyzing data, improving data quality, and using technology to solve practical problems. I am passionate about building efficient systems and contributing to data-driven organizations.

EDUCATION BACKGROUND

CAVENDISH UNIVERSITY ZAMBIA

Bachelo of Science in Computer Science
Expected Graduation: 2026

CERTIFICATIONS

- Artificial Intelligence – State University of New York
- Web Development – State University of New York
- Operations Research – National Taiwan University
- Ethics in Technology – University of Notre Dame
- Microsoft Excel – Coursera
- Programming with JavaScript, HTML and CSS – Duke University
- Machine Learning with Python – IBM
- Ethic, Technology and Engineering – Eindhoven University of Technology

CHITAMBA SECONDARY SCHOOL

- Grade 12 School Certificate

WORK EXPERIENCE

Project Lead / Data Quality Specialist - YENDA

2025 - Present

- Lead and coordinate a team of 25+ members to ensure timely task completion
- Conduct data validation and quality checks to meet 95% accuracy targets
- Analyze errors and improve data quality processes
- Monitor performance and provide feedback to improve productivity
- Work with AI training data, ensuring consistency and accuracy
- Handle sensitive data with confidentiality

Assistant Monitoring & Evaluation Officer / Database Manager

Vision Africa Regional Network – Zambia (2024–2025)

Project: **WASH Capacity Project**

- Designed and managed project databases
- Collected, analyzed, and reported data using Excel
- Developed monitoring tools to track project performance
- Conducted field monitoring and supported project implementation
- Prepared reports and shared insights for decision-making

Projects / Key Experience

AI Data Training Project – Yenda

- Worked on training datasets for AI models
- Performed annotation, validation, and quality control
- Improved dataset accuracy and consistency

SKILLS SECTION

Technical Skills

- Python, JavaScript, Java, HTML, CSS
- Database Management
- Data Analysis
- Microsoft Excel & Office
- AI Tools & Data Annotation

Proffessional Skills

- Data Quality Assurance
- Project Coordination
- Problem Solving
- Communication
- Team Leadership
- Attention to detail

LANGUAGE

- English Fluent
- Bemba: Fluent
- Nyanja: Fluent
